

HC Complete PAX

All essential PM components for an optimal autoclaving experience. CSS recommends this Complete PAX™ to be used if maintenance hasn't been performed in over a year and/or the autoclave sees heavy use.

HC Performance PAX

Several critical components required for reliable sterilizer operation. This PartsPAX is comprised of additional OEM parts to supplement our Complete PartsPAX.

SterilCARE™ Service for Preventative Maintenance

The Importance of Maintenance

To ensure your autoclave is running reliably and safely, Consolidated recommends quarterly preventative maintenance with our Proactive SterilCARE plan.

Scheduled quarterly PM visits with a factory-trained service provider will eliminate downtime and make sterilization one less thing for you to worry about.

SterilCARE™ Plan*	Inspection Frequency	Replacement Frequency of PM Components	PartsPAX Included
Proactive Planned maintenance that minimizes sterilizer downtime	2x/year	As needed and determined upon inspection	HC Complete PAX
Proactive Plus Planned maintenance, including emergency service, that minimizes sterilizer downtime.	Quarterly	Replaced at every inspection	HC Complete PAX and HC Performance PAX

* For a customized service program please contact Consolidated to discuss your specific facility requirements.
